

PROT. 2022/SD/211
Krzysztof Augustyn
Head of Sports
Department
European Games 2023

Torino, 06 October 2022

Object: Sport Equipment approval

Dear Mr. Augustyn,

Thank you very much for your department's continued efforts in the preparation of the Sport Climbing events at the European Games Kraków-Malopolska 2023.

With the present letter, the IFSC confirms that the IFSC Official Speed Holds and Speed Automatic Belay Devices are the essential equipment to set Speed World Records at the Sport Climbing events.

Volx (FRA) is a sole IFSC Recognised Speed Holds Manufacturer and **Perfect Descent (USA)** is a sole IFSC Recognized Auto-belay Partner, and the respective equipment must be sourced from these designated manufacturers. Both manufacturers are long-standing IFSC suppliers who have delivered the equipment to numerous IFSC events and the Olympic Games.

We can assure you that they are fully capable of supplying necessary equipment for the European Games according to the IFSC standards.

For any further inquiries, the IFSC Sport Department remains at your disposal.

Sincerely,

Maddie Dunn
Sport Director
