

PROCEDURE CANCELLATION NOTICE

Concerns: Delivery of the in-situ monitoring system to control epitaxial growth – ref. No. F2/59/2022/ZP.

Acting pursuant to Art. 260 Par. 2 of the Public Procurement Law Act (Journal of Laws of 2019, item 2019 with subsequent amendments), hereinafter referred to as “PPL”, the Contracting Entity hereby notifies of the cancellation of the procedure.

Legal grounds: Art. 255 Par. 2) of the PPL, i.e. all submitted requests for participation in the proceedings or tenders have been subject to rejection.

Factual grounds: The bid submitted by the Contractor k-Space Associates Inc., 2182 Bishop Cir, Dexter, MI 48130, USA is subject to rejection based on Article 226 (1) (5) - its content is inconsistent with the terms of the contract.

The Ordering party required that the tests be performed on GaN/AlN/Al₂O₃ samples of 1x1 cm in size, and the Contractor proposes to perform tests on samples much larger due to the measurement area of the device and the influence of the edge effect.
