

Material No: 7
Batch No: 2316
Manufactured Date: 2023
Expiration Date: 2025

Certificate of Analysis

Test	Specification	Result
The following results are based on the bulk bonded phase:		
Carbon (C)(%)	For Information Only	7
Nitrogen (N)(%)	For Information Only	2
Surface Coverage (ug/m2), Based on %C	For Information Only	125
Surface Coverage (ug/m2), Based on %N	For Information Only	44
The following results are based on the silica gel raw material:		
Particle Size Distribution: APD, microns	47 - 61	52
Specific Surface Area, m2/g	For Information Only	544
The following results are based on the solid phase extraction columns:		
Extraction Residue	$\leq 0.2 \%$	passes test

For Laboratory, Research or Manufacturing use.
3mL Solid Phase Extraction Columns
500 mg per Column

Country of Origin: POLAND
Packaging Site: Gliwice Mfg & DC
