

Safe surfacing with FLEXOTOP™ ECO

FLEXOTOP™ ECO is high-quality wet-pour surfacing from KOMPAN. From a safety perspective, this surfacing provides brilliant shock absorption thanks to its two-layer design. Functionality and quality is ensured through TÜV certification according to EN1177 and BS 7188.

With FLEXOTOP™ ECO, designers can be very playful, and the children love it. Different colours, shapes and graphics can support and highlight the overall design theme and also extend play from the equipment into the surface. The soft, yet firm surfacing is highly inclusive, making

it possible for wheelchair users to easily access the playground. From an operational point of view, FLEXOTOP™ ECO provides a clean and comfortable surface with very low maintenance costs.
