Environmental Rehabilitation of Brownfield Sites in central Europe

Project duration: June 2016 - May 2019

Budget: 3.795.769,00 Euro

ERDF: 3.117.919,00 Euro

Lead partner: City of Venice - Italy

WWW.INTERREG-CENTRAL.EU/RESITES

Main outputs:

- A geo-information tool for better planning brownfield regeneration
- A full training package for public employees and stakeholders
- 11 pilot actions testing sustainable solutions in brownfields
- 9 strategic action plans to increase effectiveness and sustainability of brownfield management
- A common transferability manual to consolidate and deploy ReSites' approach

ReSites is a transnational cooperation project funded by Interreg CENTRAL EUROPE and aims to improve environmental management of brownfields in central European functional urban areas
