Technical drawings of the 120x120x2 container showing dimensions in mm:

- Front View (Left):** Overall width 1160, overall height 490. Internal width 1020, internal height 390. Two DN125 ports are shown, each with a 100 mm diameter. The base is divided into three sections: 320 mm (left), 520 mm (center), and 320 mm (right).
- Side View (Middle):** Overall width 710, overall height 780. Internal width 570, internal height 390. One DN125 port is shown with a 100 mm diameter. The base is divided into three sections: 100 mm (left), 420 mm (center), and 180 mm (right).
- Top View (Right):** Labeled "widok od góry". Overall width 1200, overall height 1200. Internal width 1020, internal height 710. The base is divided into three sections: 320 mm (left), 520 mm (center), and 320 mm (right). The side walls are 70 mm thick.

Technical drawing of a rectangular plate with a central rectangular hole. The overall dimensions are 1020 mm in width and 1301 mm in height. The central hole has a width of 520 mm and a height of 570 mm. The plate has a thickness of 70 mm. The drawing shows the plate with a central hole and a surrounding frame. The dimensions are labeled as follows: overall width 1020, overall height 1301, hole width 520, hole height 570, and plate thickness 70. The drawing is a top-down view of the plate.
